

## RS-10010

## AIR PEDAL BELLOWS FOR RS-13003 ELECTRICAL HOSE ROLLER

### Features:

- Black steel housing resists wear in rugged use.
- 10 ft. of 1/8-inch ID reinforced PVC tubing connects pedal to air switch.
- Strain relief grommet prevents tubing pull-out.
- Includes 2 screws for mounting to pedal housing.
- Compatible with RS-13003 Electrical Hose Roller and RS-10005 Air Switch.

### General Description:

The RS-10010 Air Pedal Bellows is designed to control the RS-13003 Electrical Hose Roller through a pneumatic connection to the RS-10005 Air Switch. This foot-operated bellows allows the operator to start and stop the roller while keeping both hands free for hose handling.

The RS-10010 features a durable black steel housing and 10 feet of 1/8-inch ID reinforced PVC tubing. A strain relief grommet at the housing protects the tubing connection and prevents pull-out. The unit comes with two mounting screws for secure installation to the foot pedal metal housing.

Built for long-lasting reliability, the RS-10010 delivers smooth actuation, easy installation, and dependable operation in demanding fire service environments.

### Mechanical Specifications:

- Height: 2.74 inches
- Width: 1.28 inches
- Depth: 2.88 inches

### Tubing:

- Length: 10 ft.
- Diameter: 1/8 inch ID

**Weight:** .50 lbs.

**Switch Type:** Air Impulse

**Actions:** Single Stage Momentary
