

RS-13001

Portable Stand for Electric/Gas Rollers and ReLoader

Features:

- Secures and supports the RS-13002 ReLoader, RS-13003 Electric Hose Roller, and all RS-1300X Gas Hose Rollers
- Built-in braking system controlled by the maneuvering handle
- Heavy-duty welded steel frame with powder-coated construction to withstand years of demanding use
- Flat-free tires and maneuvering handle for easy and safe transport

General Description:

The RS-13001 portable stand is designed to help you minimize firefighters' fatigue and discomfort so that you can enjoy your time after work. The RS-13001 portable stand enables easy and safe transport and use of The Rookie electric (RS-13003) and gas hose rollers (RS-13003), and The Rookie ReLoader (RS-13002).

The RS-13001 portable stand has a built-in braking system controlled by a maneuvering handle. Lifting the handle enables moving the stand back and forth. When the handle is down, the brakes are engaged for stationary operation. The tires of the portable stand are durable and flat-free for years of hard use. The RS-13001 has a universal support tray designed with a latch on the front and holes for self-locking pins on the back to secure the hose rollers or the ReLoader to the stand.

Mechanical Specifications:

- Width: 33 inches
- Height: 25 inches
- Length: 40 inches
- Weight: 57 lbs

Material

- Body: Powder-coated steel

Warranty

- Five (5) years
